

Transform Your House Into a Healthy Home

Revolutionary State-of-the-Art Air Cleaning

Why do we call our system the "Perfect 16"? The Perfect 16 is the only system that is rated a perfect MERV 16, the highest industry rating for whole-house air cleaning. No one else has that high of a rating and can match IQAir's overall system performance!

The Perfect 16 has the highest filtration efficiency for removing bacteria, pet allergens, mold spores, dust, pollen and other contaminants that can be detrimental to your health. It is the perfect system for people who suffer from allergies, asthma or for people who just want to breath healthier air and have a healthier lifestyle. Unlike other air cleaners, the Perfect 16 does not generate ozone or create charged ions that organizations such as the American Lung Association and the Environmental Protection Agency believe could be detrimental to your health.

It typically takes less than a day to install your Perfect 16. It is so simple to use. Just turn on your HVAC fan and in just one hour you will have 10 times cleaner air, GUARANTEED! Once your Perfect 16 is installed, your IQAir® Authorized Installer will use a sophisticated laser particle scanner to show you how clean your air is and will continue to be! It's that simple and easy!

With the Perfect 16, you can transform your house in to a healthy home!

Simple, Clean Installation by IQAir® Authorized Professionals.

"You can tell the difference of the air quality the very first day. And, my sleep has been better too!" *Dawne A.*

Step 1: Pre-Installation Evaluation An IQAir Authorized Professional will demonstrate to you how you can improve the health of your home and will assess your home's individual needs.

Step 2: Installation In less than a day, your Perfect 16 is installed and your house is transformed into a healthy home.

Frequently Asked Questions

Why is the Perfect 16 so much more effective than ordinary air cleaning systems? The Perfect 16 is the only system that is rated a perfect MERV 16, the highest industry rating possible for air cleaning. No other air purifying system has a higher rating!

Does the Perfect 16 make noise? No. The Perfect 16 is perfectly quiet.

How long does it take to install the Perfect 16? The Perfect 16 can be installed by an IQAir Authorized Professional in a typical home in less than a day.

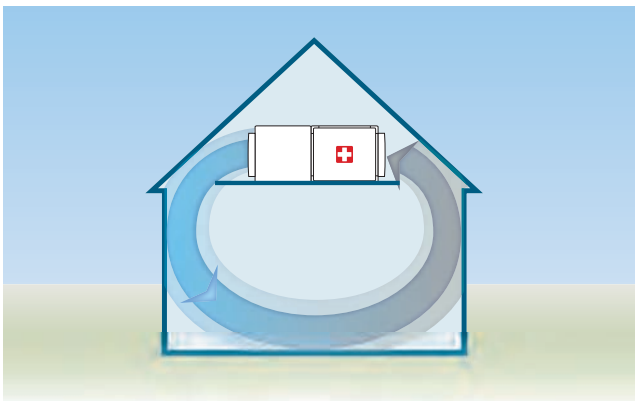

How long do Perfect 16 filters last? With average usage, your Perfect 16 filters will last 3 years, up to 12 times longer than filters of other whole-house air cleaners. The Perfect 16 is also specially designed to make changing filters simple and easy.

Do I need to run my heating or air conditioning for the Perfect 16 to work? No. Simply set your thermostat control to "Fan On". In just one hour, you will have 10 times cleaner air, guaranteed!

Can the Perfect 16 be installed in any home? The Perfect 16 can be installed in most homes with forced air heating, cooling or both. It works in conjunction with your home's heating ventilation and air conditioning system (HVAC).

Step 3: Testing and Verification After installation, your IQAir Authorized Professional will use a laser particle scanner to show you that the Perfect 16 provides 10 times cleaner air than before!

How it Works

Air is drawn through your home's return grille typically located in a common area such as a hallway. Air is then filtered through over 170 square feet of the Perfect 16's pleated Micro-Fiber Filtration panels. This traps over 95% of harmful micro-particles each time the air circulates through the system. The purified air then goes through your central air handling unit where it is distributed to every part of your home. The air in your house gets filtered through this system up to 125 times a day. The Perfect 16 continuously cleans and purifies the air to transform your house into a healthy home.

Advanced Micro-Fiber Filtration Technology

The Perfect 16 is the first complete home air cleaning system to utilize Advanced Micro-Fiber Filtration Technology. The Perfect 16's filter fibers are uniquely engineered to be 10 times thinner than those used in standard filters. This allows better air flow and creates an almost impenetrable barrier to trap more harmful particles than other leading filters. The Perfect 16 Micro-Fiber Filtration Technology sets a new standard for air cleaning efficiency and airflow.

Swiss Craftsmanship – The Highest Quality

Each Perfect 16 is crafted, assembled, individually inspected and tested at IQAir's Swiss factory to make sure it meets our high standards before it is shipped to your home. Expert craftsmen assemble each air cleaning system with dedication and IQAir's extreme attention to detail. No other air cleaning system can match IQAir's standards for design, engineering and quality. IQAir's passion for quality translates into a product which will give you decades of reliable, trouble-free performance. In fact, IQAir is so confident of their Swiss craftsmanship that it covers the Perfect 16 with a full 10 year parts warranty.*

* Filters are a consumable and are excluded from this warranty.

World's First MERV 16 Rating

The Perfect 16 is the first whole-house air cleaning system to achieve a MERV 16 rating – the very highest MERV rating possible.

Product of the Year

Reviewboard Magazine named the Perfect 16 their 2006 Product of the Year. Reviewboard's product reviews are read each year by 110 million readers in 73 countries.

Extreme Makeover: Home Edition

Over the course of four years, IQAir is proud to have accepted and accomplished the challenge to create America's healthiest homes on the popular reality TV show Extreme Makeover: Home Edition.

Certified Ozone-Free

Ozone is a lung irritant and asthma trigger that is emitted by many air cleaning systems. The Perfect 16 is certified by the International Association of Air Cleaner Manufacturers (IAACM) to produce absolutely no ozone. It is 100% ozone-free.
